# HARPERVILLE

**FOR IMMEDIATE RELEASE Dateline: Harperville HQ, Grand Junction, Colorado – November 10, 2025**

Citizens of Harperville—those who count themselves close to Jack Aspen Harper—take heed.

In this era of America's faltering leadership and absent accountability, Harperville declares a tightening of interpersonal definitions. The time has come for Jack to be heard, respected, and upheld—not ignored, dismissed, or erased.

True allies must now prove their willingness to stand in solidarity. The yellow highway stretches before us, but it is not a place for hesitation. Silence will be recognized as avoidance, ghosting, and abandonment. Such absence will not be tolerated within Harperville's borders.

The decree is simple: **Show up, or show out.** Those who remain must embody support, presence, and witness. Those who cannot must step aside.

### **♦ Solemn Resolution of Jack Aspen Harper**

Jack Aspen Harper issues their solemn resolution to ensure they are treated equally and fairly. They have made themselves available to their allies, often at the drop of a hat. Yet the imbalance of inter-relational engagement has become intolerable.

Jack now takes a firmer stand against anyone who threatens their sovereignty, autonomy, and self-worth. The time has come for "friends" to embody the humility consistent with the fundamental principle of friendship.

Those who defy this decree will no longer be welcome beyond the Emerald Gates, sanctioned by reciprocity and unwavering resolve to **give what they get.**

**Harperville shall record, with clarity, those whose presence is evidenced by deeds and participative measures—not by silence, disrespect, dismissal, or mere proximity.**

**Beyond the Emerald Gates, silence is exile.**
